

Community. Wellness. Partnership.

July was a milestone month for DRIPwoRX as we expanded our role beyond the IV lounge and into the community.

We were honored to serve as the official hydration partner for multiple premier events across South Carolina, connecting with athletes, community leaders, and organizations that share our passion for helping people perform, recover, and feel their best. These partnerships represent more than hydration—they reflect our commitment to bringing wellness where people live, work, compete, and connect.

- **Official Hydration Partner – Thornblade Adult Charity Tennis Classic**

We were proud to support the 2026 Thornblade Adult Charity Tennis Classic as the tournament's Official Hydration Partner. Throughout the weekend, our team helped players stay hydrated, recover between matches, and learn how IV therapy can support athletic performance and recovery. It was a fantastic opportunity to engage with Greenville's tennis community while supporting a tournament that gives back.

- **Dabo's Ladies Clinic**

DRIPwoRX was honored to participate as a sponsor of Dabo's Ladies Clinic. With more than a thousand women gathering to support breast cancer initiatives throughout South Carolina, the event perfectly aligned with our mission of investing in health, wellness, and community. We enjoyed meeting so many incredible women and sharing how personalized IV therapy can support overall wellness and recovery.

COMING THIS OCTOBER

GVL Fit Fest – Official IV Therapy & Hydration Partner

We're excited to announce that DRIPwoRX has been selected as the exclusive IV Therapy and Hydration Partner for GVL Fit Fest this October. Our team will operate the VIP Hydration Lounge while also providing race recovery services for 5K runners, cyclists, and festival attendees. This partnership reflects our growing commitment to supporting athletes, active lifestyles, and wellness-focused community events.

● Looking ahead

As DRIPwoRX continues to grow, so does our commitment to building meaningful partnerships throughout the Upstate. From athletic events and charity tournaments to oncology, wellness, and community organizations, our goal is to bring clinically guided hydration and recovery services wherever they're needed most.

We're grateful to every organization that has welcomed us this summer, and we're excited for what's ahead.

Feel Better. Recover Faster. Live Well.
